

PAMELA A. GAYTAN, BSN, RN, DENVER, COLORADO

BOARD MEMBER SINCE 2022

Why is Pam serving on the HNF Board?

Pam has led Patient Advocacy at TerSera Therapeutics for nearly three years, where she has worked hand in hand with NET patient advocacy and HCP organizations. As an RN, she believes nurses should always advocate for their patients by providing patient-friendly disease awareness and support. Pam's extensive NET Oncology experience means she can help spread the word out in the HCP and patient communities. She believes in and wholeheartedly supports The Healing NET Foundation's mission to optimize the care of those with neuroendocrine cancer.

About Pamela Gaytan

Pamela A. Gaytan, BSN, RN, serves as Executive Director, Clinical Nurse Educator and Patient Advocacy with TerSera Therapeutics. Gaytan is a primary clinical nurse educator and leads a team of nurses as they educate and support health care professionals and patients. Gaytan spent several years as a registered nurse clinician at The Neuroendocrine Institute at The Rocky Mountain Cancer Centers in Denver, Colorado, a practice in the US Oncology Network. Gaytan served as the primary neuroendocrine nurse engaged in patient and family education pertaining to diagnoses and treatments, delivered continual psychosocial support and advocacy, and provided direct patient care. She is actively engaged in the Oncology Nursing Society (ONS), Infusion Nursing Society (INS) and the Emergency Nurse Association (ENA). Gaytan serves as an industry speaker in the nursing community with publications and abstracts focused on nursing support programs and cancer education.
